

ADVANCE ANNOUNCEMENT

- SAINT-2001 -

The 2001 Symposium on Applications and the Internet

General Co-Chairs:

Ming T. Liu, The Ohio State Univ., USA
Iwao Toda, Fujitsu Labs, Japan

Program Co-Chairs:

Fred Douglass, AT&T Labs-Research, USA
Katsuo Ikeda, Kyoto Univ., Japan

Tutorials Chair:

Sumi Helal, Univ. of Florida, USA

Workshops Chair:

Shiro Sakata, NEC, Japan

International Liasion Co-Chairs:

Carl K. Chang, Univ. of Illinois-Chicago, USA
Masaaki Okochi, IBM Japan, Japan

Industry Liasion Co-Chairs:

Mohammad Obaidat, Monmouth Univ., USA
Haruhisa Ichikawa, NTT, Japan

Publicity Chair:

Eric W.S. Chen, Chung Hsing Univ., Taiwan

Registration Chair:

Makoto Takizawa, Tokyo Denki Univ., Japan

Treasurers:

Joseph E. Urban, Arizona State Univ., USA
Kenichi Yoshida, Hitachi, Japan

Local Arrangements Chair:

Pradip Srimani, Colorado State Univ., USA

Technical Committee on Internet Chair:

Fred Douglass, AT&T Labs-Research, USA

Conference/Workshop/Tutorial Registration

Each attendee pays for one registration fee and can attend any number of conference and workshop sessions. The registration fee includes a copy of both proceedings (conference and workshops, published by the IEEE Computer Society Press), a reception, and a banquet; But tutorial registration is additional. Please visit the conference websites for details and the registration form.

Deadline for Registration:

December 15, 2000

Hotel Reservation

Please visit the conference websites for details. Plan to make your reservations early!

Deadline for Hotel Reservation:

December 18, 2000

**DoubleTree Hotel, San Diego - Mission Valley
California, USA, January 8-12, 2001**

*Co-sponsored by the IEEE Computer Society (IEEE-CS) and
the Information Processing Society of Japan (IPSJ)*

Scope

This conference provides a forum for engineers and scientists in academia, industry, and government to present their latest findings in the area of Internet applications and the underlying technologies to support those applications.

Conference

The conference will be held on January 9-11. Twenty-five papers have been accepted for presentation covering the following areas:

- *Agents on the Internet*
- *Collaboration Technology*
- *Distributed & Parallel Applications*
- *Domain Specific Languages*
- *E-Commerce*
- *Information Retrieval and Data Mining*
- *Internet Services*
- *Mobile Computing*
- *Multimedia Technology*

Workshops

The following workshops will be held on January 9-12:

- *Telemedicine and Global Telehealth*
- *Distance Education on the Internet*
- *Software Engineering on the Internet*
- *Internet Standards*
- *Digital Broadcast on the Web*
- *Internet QoS Control*
- *Next-Generation Internet Projects*
- *Digital Libraries on the Web*
- *Intelligent Transport Systems on the Internet*
- *Internet Home Appliances*

Tutorials

One full-day and three half-day tutorials will be given on January 8. The titles and presenters are as follows:

- "XML and Related Supportive Technology," Clemens Cap, Univ. of Rostock, Germany (Full-day)
- "Coordination Technologies for Internet Applications," Franco Zambonelli, Univ. di Modena, Italy (Half-day)
- "Web Engineering Practices," James Isaak, USA (Half-day)
- "Application Service Providers - A New Trend in Internet Business," Borko Furht, Florida Atlantic Univ., USA (Half-day)

For further information

Please visit "www.cis.ohio-state.edu/~mliu/saint/" for the advance program, registration fees and form, hotel and other information. Please direct your questions to Mike Liu (liu@cis.ohio-state.edu; +1-614-292-6552)
